Marari Network Solutions

Ari Novikoff

587 Mathias Ave

Winnipeg, Manitoba, R2V 1P1

Date: August 19, 2005

Good morning Ari,

This is the letter of reference you requested, please forward to any of your prospective clients. They may contact me direct for any details on the scope of work done.

We have hired the services of Ari Novikoff for IT support. We started out with needing a copier networked to our computers. This lead to an understanding that Ari could manage and organize the whole network.

We were looking for a reliable contact to clean up our server, check the whole network for problem areas and develop a back up procedure. We had conflicts with several programs.

With Ari's advice we upgraded the server and software, we kept all of our pc's and did a clean installation of all software.

These minimal efforts were exactly what we needed and were well within our budget. We are very impressed with Ari's knowledge of Microsoft products and the proper applications of each.

We are continuing to utilize Ari to maintain our systems. His advice on virus protection and back up planning will help safeguard our data.

We recommend Ari for your IT work.

Regards,

Cameron Wilson
